THREE GOLDEN ARROWS

BUILT FOR RELIABLE CONNECTIONS

About Three Golden Arrows

Three Golden Arrows is the dedicated pipe brand of Bhardwaj Enterprises, offering dependable piping solutions for construction, plumbing and infrastructure requirements across India.

Our product range combines practical engineering, consistent quality and project-focused supply support for contractors, distributors and project buyers.

OUR STRENGTHS

Focused Product Range

PVC, uPVC, CPVC & SWR pipe systems.

Wide Size Availability

Pipe sizes from 20 mm to 110 mm.

Pan-India Supply

Direct coordination for contractor, distributor and project requirements.

Project-Focused Support

Helping customers select the right pipe system for their application.

OUR APPROACH

Right Product • Right Application • Reliable Supply

THREE GOLDEN ARROWS

OUR PIPE SYSTEMS

THE RIGHT PIPE FOR EVERY APPLICATION

01 PVC PIPES

20–110 mm

Designed for water distribution, utility lines, general plumbing and agricultural applications.

Applications:

Water Supply Utility Lines Agriculture Irrigation

02 UPVC PIPES

20–110 mm

Durable and corrosion-resistant piping for pressure plumbing and cold-water applications.

Applications:

Pressure Plumbing Water Supply Borewell
Commercial Buildings

03 CPVC PIPES

20–110 mm

Engineered for hot & cold potable water plumbing in residential and commercial projects.

Applications:

Hot Water Cold Water Residential Commercial

04 SWR PIPES

75–110 mm

Reliable drainage systems for soil, waste and rainwater management.

Applications:

Soil & Waste Rainwater Vent Systems
Building Drainage

THREE GOLDEN ARROWS

PVC & UPVC

ENGINEERED FOR EVERYDAY PERFORMANCE

PVC PIPES

20–110 mm

A dependable solution for water and utility conveyance, suitable for residential, agricultural, institutional and general infrastructure requirements.

Key Benefits

- Smooth internal surface
- Corrosion resistant
- Reliable fluid conveyance
- Suitable for multiple applications

Typical Applications

Residential & Commercial **Agriculture & Irrigation**
Institutional Projects **Utility Lines**

UPVC PIPES

20–110 mm

Rigid, durable and corrosion-resistant piping designed for pressure plumbing, potable water and demanding cold-water applications.

Key Benefits

- High structural rigidity
- Chemical resistant
- Long service life
- Suitable for pressure applications

Typical Applications

Borewell Systems **Potable Water**
RO & Water Treatment **Rainwater Harvesting**

THREE GOLDEN ARROWS

SPECIALIZED SYSTEMS.
DEPENDABLE PERFORMANCE.

CPVC PIPES

20–110 mm

Designed for hot and cold water plumbing. CPVC provides reliable performance in residential and commercial water systems.

Key Benefits

- High-temperature capability
- Suitable for hot & cold water
- Corrosion resistant
- Reliable jointing

Applications

Homes • Apartments Hotels • Hospitals
Offices Solar/Geyser Plumbing

SWR DRAINAGE PIPES

75–110 mm

Designed for efficient soil, waste and rainwater drainage in building and infrastructure projects.

Key Benefits

- Reliable leak-resistant joints
- Smooth internal surface
- Suitable for drainage systems
- Available in Ring-Fit & Solvent-Fit options

Applications

Soil & Waste Stacks • Vent Systems
Commercial Buildings • Terrace Rainwater Drainage

THREE GOLDEN ARROWS

CPVC

Hot & Cold Water System

Beige CPVC pipe system intended for hot and cold water distribution. Range shown in SDR 11 and Schedule 80.

Class / Schedule	Size	OD mm	Wall mm	Length m	Pcs / Bundle	Wt kg/m*	Wt kg/pc*
SDR 11	1/2″	15.88	1.44	3	100	0.101	0.304
SDR 11	3/4″	22.23	2.02	3	50	0.199	0.596
SDR 11	1″	28.57	2.60	3	30	0.329	0.986
SDR 11	1-1/4″	34.92	3.17	3	20	0.491	1.473
SDR 11	1-1/2″	41.27	3.75	3	15	0.686	2.057
SDR 11	2″	53.98	4.91	3	8	1.172	3.517
Schedule 80	2-1/2″	73.03	7.01	3	5	2.253	6.760
Schedule 80	3″	88.90	7.62	3	3	3.016	9.048
Schedule 80	4″	114.30	8.56	3	2	4.408	13.223
Schedule 80	6″	168.28	10.97	3	1	8.403	25.209
Schedule 80	8″	219.07	12.70	3	1	12.763	38.288

* Nominal calculated weight from stated OD, wall thickness and assumed material density; actual production weight varies with tolerance, socket, formulation density and process conditions.

Selection note: Confirm pressure/class, temperature, jointing method, chemical compatibility and applicable approval before ordering.
